

QUALITY POLICY

To satisfy the needs and expectations of the clients and other interested parties, having for it the material and human means necessary to reach and maintain the quality objectives. These objectives are based on management based on processes and risk, adequate and efficient coordination in manufacturing, delivery, and after-sales service; with the aim of continuously improving efficiency and concentrating its effort in providing a product that meets the needs, expectations, and requirements of customers, always complying with the legal and regulatory requirements that affect it. For this GECOL is provided with the necessary technical and human resources to make our products the best and most competitive in the market. Therefore, it manages and provides sufficient and adequately trained personnel, means and equipment to ensure the capacity and safety of the execution of its processes, providing the organization with the appropriate reference framework to establish and review the quality objectives.

The design and production activities of cement derivatives, adhesives, paints, and aggregates developed by GECOL companies are documented in accordance with a Quality System based on the ISO 9001: 2015 Standard.

The Senior Management of GECOL assumes the commitment to disseminate this Quality Policy to all personnel through this Quality Manual. Likewise, Senior Management annually sets Quality objectives and company goals and transmits them to all staff, to achieve the highest degree of customer satisfaction, cost reduction and continuous improvement of our services.

Top Management establishes the Quality Policy, 01/01/2023.
